Software Engineering
Uskudar University
2021-2025

WORK EXPERIENCE

SAPORTIF TECHNOLOGY
2022-2023

FRONT-END DEVELOPER

I've an experience of Frontend Developer in the beginner level. I've experienced team work and collaboration in Software industry,

MARKETING

I've worked as Marketing team member in Saportif Technology. My learning outcome is Figma, Blog Writing and basics of marketing,

INTERSHIP

EARTECH INFORMATION TECHNOLOGY
2023-2024

DEVOPS

I completed a DevOps internship at Eartech, where I focused on learning the fundamentals of Azure cloud services. During this time, I gained a basic understanding of cloud infrastructure and deployment processes, which helped me grasp key DevOps concepts.

IAS SOFTWARE
2024-2025

REACT NATIVE

I completed a React Native internship at IAS Software, where I worked on developing mobile applications for both Android and iOS platforms. During this time, I focused on building user interfaces, integrating navigation, and optimizing app performance. I also collaborated with the team to ensure seamless cross-platform functionality, enhancing my skills in mobile app development and problem-solving.
